

## **FISCAL NOTE**

TO: Chief Clerk of the Senate  
Chief Clerk of the House

FROM: James A. Davenport, Executive Director

DATE: February 20, 1995

SUBJECT: **HB 794 - SB 1440**

This bill, if enacted, will require the Department of Transportation to pay for the cost of relocating all drinking water, sanitary sewer or fuel gas utility lines as a part of highway construction projects. At the present time only those lines which are located on private easements or which are located for interstate funded projects are paid for.

The fiscal impact from enactment of this bill is estimated to be an increase in state expenditures from the highway fund; however, the amount of such increase cannot reasonably be determined since it would depend upon the number and location of such projects but is estimated to exceed \$1,000,000.

This is to duly certify that the information contained herein is true and correct to the best of my knowledge.

A handwritten signature in black ink, reading "James A. Davenport". The signature is fluid and cursive, with the first letters of the first and last names being capitalized and prominent.

James A. Davenport, Executive Director
